THE CONNER GROUP

VAC-TRON

VACUUM TRAILER

TIER 4 FINAL DIESEL

VACUUM AIRFLOW	DEBRIS TANK	WATER CAPACITY	PUMP PRESSURE
575-580 cfm	500 gal	200 gal	3,000 psi

SYSTEM SPECIFICATIONS

Vacuum performance	Positive-displacement blower producing 575-580 cfm and up to 14 in Hg vacuum
Debris / spoil tank	500-gallon steel tank with 60-degree hydraulic dump tilt and hydraulic claw-door mechanism
Water system	200-gallon fresh-water capacity split between two saddle tanks; high-pressure pump delivers 4 gpm at 3,000 psi
Engine	Typical: 24 hp Kohler Tier 4 Final diesel engine
Filtration	Vac-Tron patented CVS filtration system with 0.5-micron cartridge filtration
Reverse flow / pressure	Standard reverse-pressure option for clearing line clogs or pressure-offloading liquid waste
Operator safety	Tank lift, rear-door controls and system gauges on the curbside control panel keep operators clear of traffic

Confirm the delivered unit configuration and specifications before rental.
