THE CONNER GROUP

WOMEN-OWNED UTILITY BUSINESS

FEDERAL EQUIPMENT CAPABILITIES

RENTALS | SALES | LEASING | SERVICE

CAPABILITY STATEMENT

Utility, telecom & construction equipment. Practical support.

The Conner Group, LLC is a women-owned, family-operated equipment company based in Saraland, Alabama. We support utility, powerline, telecom, underground and construction teams nationwide with specialized equipment, project-specific quotations and service support.

CORE CAPABILITIES

Utility & powerline equipment
Insulated and non-insulated bucket trucks, digger derricks, cable-handling equipment, reel trailers and auger tooling.

Telecom & fiber splicing
All-in-one aerial splicing units, splicing trailers, cable placers and specialized telecom fleet equipment.

Underground & construction
Directional drills, plows, excavators, forklifts, support trucks and equipment trailers for demanding jobs.

Temporary power & fleet support
Mobile generators; boom, bucket, hydraulic and chassis repairs; preventive maintenance and inspection support.

WHY TCG

- Leadership brings 20 years of experience across equipment rental, oilfield and utility work.
- Personal attention from a family-operated team with nationwide equipment reach.
- Rental, sales, leasing and service options aligned with the equipment requirement and project schedule.

FEDERAL PAST PERFORMANCE

Completed truck sales to Guam under a federal contract. TCG continues to pursue federal equipment purchase and rental opportunities.

DISCUSS YOUR GOVERNMENT EQUIPMENT REQUIREMENT

Send the specifications, quantity, jobsite location, required dates and rental term, if applicable.

EQUIPMENT & SUPPORT

Specialized solutions for government and contractor requirements.

Equipment is selected around the application, specifications and jobsite conditions. Rental, purchase, lease and selected rental purchase options are reviewed with each requirement.

UTILITY & POWERLINE

Equipment for overhead utility work

- Insulated and non-insulated bucket trucks
- Digger derricks and auger tooling
- Pulling and cable-handling equipment
- Reel loaders, reel trailers and pole trailers

TELECOM & FIBER

Equipment for fiber deployment

- All-in-one aerial splicing solutions
- Splicing trucks, vans, pickups and trailers
- Cable placers and bucket trailers
- Reel-handling and support equipment

UNDERGROUND & CONSTRUCTION

Equipment for installation and site work

- Horizontal directional drills and plows
- Rock saws and specialized attachments
- Excavators, loaders and forklifts
- Dump, water and fuel trucks; equipment trailers

POWER, REPAIR & INSPECTIONS

Equipment support beyond delivery

- Mobile generators for temporary power
- Boom, bucket, hydraulic and chassis repairs
- Preventive maintenance and dielectric testing
- ANSI A92.2 / A10.31 inspection support and DOT inspections

HOW WE SUPPORT BUYERS

Scope the requirement. Review the equipment application, specifications, quantities, site access and schedule.
Build the offer. Address configuration, availability, rental duration, delivery arrangements and support requirements.
Coordinate the next step. Work with government purchasing teams, prime contractors and subcontractors on equipment and service needs.

Equipment, options, availability, delivery, service scope and commercial terms are confirmed in the written quotation. Service and mobile support depend on the unit and location. Solicitation-specific eligibility, representations and supporting documentation are reviewed before bidding.
